

Advanced Skills Educational Leader Award

Level 5 Operations and Departmental Manager Apprenticeship

Overview

Great Leaders can lead and manage individuals, teams and projects with integrity and competence, promoting trust, collaboration, and higher aspirations. They communicate effectively when chairing meetings, holding challenging conversations, and providing constructive feedback. They understand how to design, deliver and evaluate improvement projects so they achieve the desired results. Leaders that are highly reflective and resilient can learn and grow as their role develops over time.

As well as achieving the OLEVI accreditation, you will receive a Diploma and be qualified as a Level 5 Manager. The accreditation process involves a knowledge test as well as two professional discussions.

Objectives

The programme:

- enables you to create and implement strategic projects to achieve results
- helps you understand your own strengths and areas for development as a leader
- develops the skills to develop and grow their teams, through challenge, collaboration and feedback, so they can consistently deliver high outcomes
- provides the tools to systemically measure the knowledge and skills their team has developed at every stage of development. This means they can review the impact of their leadership – and adapt it if necessary.
- provides an opportunity to reflect openly and rationally on their own leadership and create an effective personal development plan to move forward.
